

Ahuja introduces PRO+3400, a premium microphone for the most demanding high end applications.

Featuring:

- Large diameter diaphragm for more sound pickup and better sensitivity.
- Supercardioid directional pattern to reduce feedback and allow more volume opening.
- Hum-bucking coil on the transducer to reduce hum and electrical noise pickup.
- Excellently adjusted proximity effect without distortion.
- Superb shock mount system for the transducer, to avoid handling noises.
- Wide frequency response to cover all speech and music applications.
- Ideal for all Vocal and PA applications.
